

SUBJECT MATTER EXPERT CONSULTANCY

Key Survival Equipment provide expert consultancy to the survival industry and individuals.

From Personal Survival Equipment through to Multi-Person Survival Systems – Our expert staff are able to provide information on the use and packing of items required to support you from something as simple as a day on the water through to long distance travel.

We can ensure that you prepare your equipment and yourself to make best use of the limited space you may have available and to be ready if disaster strikes?

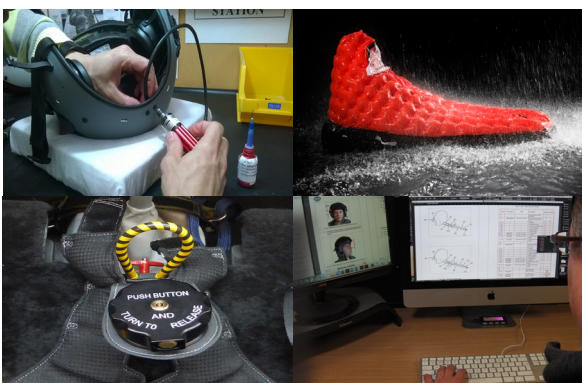

“Remember its better to have it and not need it than need it and not have it!”

Testing and Evaluation

To ensure the equipment manufactured is capable of carrying out the role it has been designed for requires rigorous testing to prevent failures, to help meet customer requirements but more importantly, **TO SAVE LIVES.**

Key Survival Equipment staff are able to assist in the testing and evaluation process from maintenance through to end-user trials.

This is backed up with robust reporting and supporting documentation to ensure that the process is smooth and efficient.

Product Support

When your product is ready to roll out and everything is in place, Key Survival Equipment are there to assist in the onward support of your product ensuring your customer is able to receive continual support throughout the life of the product.

With experience in supporting a global network of customers, Key Survival Equipment are able to offer direct support to designers, manufacturers and users of Survival Equipment and Pilot Flight Equipment.

Where possible we will come to you to discuss your requirements in detail, and will only offer you the support you need.
